

Approval is granted to:

Aero Fabrications Ltd

Common Lane,
Watnall,
Nottinghamshire,
NG16 1HD.

To supply Raytheon UK (RUK) within the scope below, approval is granted for:

The manufacture of fabricated components and assemblies to RSL requirements inclusive of conventional milling machining for cutting requirements in aid of fabricating components. Treatments including:

- Penetrative Flaw Detection (PFD) (**PART 21G** only).
- IAW Nadcap scope of approval for:
- Heat Treatment - Aluminium Alloys, Pyrometry, Conductivity and Hardness
- Chemical Processing - Painting and Dry Film Coating, Anodizing, Alocrom and Alodine
- Welding - Fusion Welding, Brazing and Additive Manufacturing

RUK APPROVAL No. RSL/UK/30005

Limitations / Remarks stated, and continued certification to your regulatory approval(s)

- **Penetrative Flaw Detection (PFD) is not approved for work in furtherance to RUK PART 145 product. For part 145 items approval is limited to:**
 - **The fabrication of formed or machined bushes, sleeves, shims, or sheet metal panels for repairs.**
- All release documentation should quote your RUK approval number.
- All materials and supplies must be released to RUK undercover of the correct form of Release Documentation i.e., certificate of conformity, Form 1 or FAA 8130 as requested on the purchase order, contract or as agreed by the RUK.
- Each release document shall identify the supplier, uniquely identify, and give comprehensive details of the item(s) supplied, e.g., drawing and revision status.
- Sub-contractors - only Inspectors approved by RUK may release the product. The supplier is responsible for notifying the RUK Quality Manager of any change to the approved signatories. Each release document must be signed by an approved signatory.
- All material to be traceable to OEM and procured directly from OEM or OEM approved distributor.

Note:

The supplier may be subject to quality assurance activity at the supplier's premises by the regulatory authority, i.e., CAA, MAA, EASA. The regulatory authority has the right of access to any area of the supplier's premises where any part of the contracted work is being performed. The supplier shall provide such reasonable accommodation, facilities and assistance as may be required.
